**Full-time**

**Donostia-San Sebastián**

**In person**

## Main tasks

We are looking for a person to lead the BIDEROAD project, with the skill-sets to manage teams and develop the business, with the support of CEIT and BTV. The intention is for the person heading the project to hold a stake in the new company, and thus play an important role.

## Profile

- Age: over 30
- Qualifications: preferably an engineer and with knowledge of ICT technologies.
- Experience in business development in public administration environments. Commercial and management skills necessary.
- Based in the Basque Country and willing to travel.
- Motivation: Build on technology 100% developed at a technology centre and working with top-tier partners.
- Languages: Advanced English and preferably Basque as well.
