

## Job offer

# Cybersecurity analyst

## ORBIK PROJECT

ORBIK was set up to complement and strengthen the powerful Basque cybersecurity ecosystem, by covering a regulatory and technological need. Its aim is to offer the industry an external seal that certifies that its products are cybersecure as per the international cybersecurity standards. It is based on the know-how and the prior experience of the Ikerlan technology centre. It is the only one in Spain whose service is aimed at European industrial manufacturers of electronic equipment.
